FIBRE CHEMISTRY
Volume 38, Numbers 1-6, 2006
(A translation of *Khimicheskie Volokna*)

Volume 38, Number 1, January-February, 2006

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Flow of Polymer Systems in the Viscoelastic State through Round Capillaries. A Rheological Analysis – Yu. A. Vinogradov. 1 3

Kinetics of Drying Polybutylene Terephthalate and Polyethylene Terephthalate Granulate – V. V. Lapkovskii, Yu. A. Geller, and B. E. Geller. 7 7

Optical Properties of Process Solutions of Secondary Cellulose Acetate in Acetone – V. M. Sedelkin, A. N. Surkova, G. P. Denisova, L. F. Ramazaeva, O. V. Nachina, and M. G. Nozdeeva. 13 11

The Liquid-Crystalline State of Cellulose Acetates: from Past to Present. Experience of the Saratov School – A. B. Shipovskaya and G. N. Timofeeva. 17 13

Rusar Microfilament Yarn for Ballistic Protection – I. V. Slugin, G. B. Sklyarova, A. I. Kashirin, L. V. Tkacheva, and S. V. Komissarov. 22 17

Rusar Para-Aramid Fibres for Composite Materials for Construction Applications – I. V. Slugin, G. B. Sklyarova, A. I. Kashirin, and L. V. Tkacheva. 25 19

New Trends in Increasing the Quality of Para-Aramid Fibres from Domestic Manufacturers – D. V. Min'kov, V. Yu. Lakunin, I. V. Slugin, O. M Bashkirov, V. T. Loginov, and M. D. Min'kov. 27 21

Evaluation of the Quality of Cellulose for Chemical Processing – N. A. Mazur, N. L. Zubakhina, and L. G. Khizhnyak. 30 23

Fabrication and Properties of Peroxide Cellulose from Coniferous and Deciduous Wood for Chemical Processing – O. A. Kolmakova, R. Z. Pen, I. L. Shapiro, and A. V. Byvshev. 32 25

Method of Treating Viscose Plant Wastewaters with Coal Wastes – N. A. Mazur and O. P. Laletina. 37 29

MATERIALS SCIENCE

Structural Dependence of the Deformation Characteristics of Polypropylene Film Fibre in Stress Relaxation – E. S. Tsobkallo, A. E. Chmel', and A. A. Tikhomirov. 41 32

Modification of Synthetic Materials to Reduce Combustibility – V. I. Besshaposhnikova, T. V. Kulikova, T. G. Nikitina, O. A. Grishina, and L. G. Panova. 46 35

Modeling the Viscoelasticity of Nonwoven Material with Consideration of the Irreversible Strain Component – V. Yu. Mishakov, G. Ya. Slutsker, and A. M. Stalevich. 50 38

FIBRE COMPOSITE MATERIALS

Polymer Fibre Composites, Basic Types, Principles of Fabrication, and Properties. Part 3. Basic Types of Polymer Fibre Composites, Properties, and Use – K. E. Perepelkin. 55 41

Mechanisms of Fracture And Prediction of The Strength of Unidirectional Carbon-Fibre-Reinforced Plastics – Yu. G. Korabel'nikov. 66 51

PRODUCTION CONTROL
Control of the Linear Density of Fibres – I. D. Pupyshev and D. E. Krivobokov. . . . 75 57
On Product Quality Control – Yu. A. Galaktionova, E. K. Ibragimova, and E. V. Bekisheva. . . . 79 60

STATUS AND TRENDS IN PRODUCTION AND MARKETS FOR VISCOSE FIBRES AND YARNS IN RUSSIA AND THE WORLD – D. N. Klepikov and G. G. Rodionova. . . . 83 64

Volume 38, Number 2, March-April, 2006

TEXTILE 2005
Effect of Ammonium Orthophosphate on Thermochemical Transformations of Hydroxyl-Containing Polymers – T. V. Druzhinina and I. M. Kharchenko. . . . 89 5
Crosslinking in Solutions of Chitosan in the Presence of a Crosslinking Reagent for Production of Fibre Biocatalysts – V. V. Nikonorov, P. A. Perminov, and N. R. Kil'deeva. . . . 95 9
Sorption of Copper Ions by Granulated Chitosan – E. V. Rumyantseva, G. A. Vikhoreva, N. R. Kil'deeva, A. A. Neborako, E. Yu. Saraeva, and L. S. Gal'braikh. . . . 98 11
Effect of the Nature of Acrylic Copolymers on the Properties of Latex Composites for Impregnation of Textile Materials – G. B. Belokurova, E. B. Malyukova, V. M. Gorchakova, T. N. Sinitsyna, and V. V. Polikarpov. . . . 103 15
Possible Reuse of the Solvent in Preparation of Arlan Fibre for Dyeing – E. A. Manyukov, A. V. Karnovich, S. F. Sadova, and N. N. Baeva. . . . 107 18
Development of Technology for High-Strength Nonwoven Materials – N. V. Kolpachevskaya, V. M. Gorchakova, B. A. Izmailov, and V. A. Batalenkova. . . . 111 21
Development of Technology for Nonwovens with Antimicrobial and Aromatic Properties – V. M. Gorchakova, B. A. Izmailov, A. V. Savinkin, and O. A. Osokina. . . . 115 24
Study of the Thermal Conductivity of Textiles for Firefighters' Uniforms – L. I. Zhmakin, I. V. Kozyrev, and K. A. Kirokosyan. . . . 118 26
Some Aspects of Formation of Heavy Basalt Fibre Packs – L. I. Koroteeva, A. V. Sharonov, and A. P. Yaskin. . . . 121 29
New Dust Removal Equipment for the Textile Industry – L. I. Gudim, V. V. Markov, and A. N. Kharitonov. . . . 124 31

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Flow of Polymer Systems in the Viscoelastic State through Round Capillaries. Deformation Analysis – Yu. A. Vinogradov. . . . 127 39
The Lower Temperature Boundary of Liquid-Phase Synthesis of Polyamide-6 – L. N. Mizerovskii, Yu. M. Bazarov, and N. I. Lytkina. . . . 133 43
Crazing of Polymers in Liquid Media — a Universal, Continuous Method of Adding Modifiers to Polymer Fibres – A. L. Volynskii, L. M. Yarysheva, and N. F. Bakeev. . . . 138 46

MATERIALS SCIENCE
Strength and Mechanism of Fracture of Composites Randomly Reinforced with Short Carbon Fibres – Yu. G. Korabel'nikov and I. A. Rashkovan. . . . 142 52
Compression Characteristics of Needlepunch Materials – A. V. Dedov. . . . 147 56

Thermokinetics of Sorption of Zn(Ii) by Vion Kn-1 Carboxyl-Containing Fibre – V. D. Kopylova, O. M. Zverev, A.V. Astapov, and Yu. S. Peregudov. 151 59
Adsorption Isotherm of a Disperse Dye – O. V. Romankevich and Ya. V. Red'ko. 155 61

MATHEMATICAL METHODS OF INVESTIGATION
Mathematical Modeling of the Deformation Properties of Nonwoven Materials with Variable Rigidity – V. Yu. Mishakov, G. Ya. Slutsker, and A. M. Stalevich. 158 64

PRICES FOR PETROCHEMICAL RAW MATERIALS AND SYNTHETIC FIBRES AND THREAD IN THE SECOND HALF OF 2005 – E. M. Aizenshtein. 164 67

Volume 38, Number 3, May - June, 2006

TEXTILE — 2005. ARTICLES FROM THE PROCEEDINGS OF THE ALL-RUSSIAN SCIENTIFIC-TECHNICAL CONFERENCE "CONTEMPORARY TECHNOLOGIES AND EQUIPMENT IN THE TEXTILE INDUSTRY" (Moscow State Textile University, November, 2005). Continued
Development of Methods of Manufacturing Nonwoven Sorbing Materials – O. A. Golikova, E. B. Malyukova, V. M. Gorchakova, V. N. Fomin, N. A. Marushkina, and R. P. Terekhova 179 3
New Aroyleneimidazoles as Dyes for Thermoplastic Polymeric Materials – K. I. Kobrakov, N. S. Zubkova, G. S. Stankevich, Yu. S. Shestakova, V. S. Stroganov, and O. I. Adrov 183 5
Methyl Phloroglucinol-Based Dyes for Chemical Fibres – V. I. Ushkarov, K. I. Kobrakov, A. I. Alafinov, G. S. Stankevich, S. A. Shevelev, and A. Kh. Shakhnes 188 8
Model Description of the Nonlinear Viscoelasticity of Oriented Polyethylene Terephthalate and Polycaproamide Fibres – V. Sh. Sarkisov, I. V. Moskin, and V. G. Tiranov 191 12

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Quantum-Chemical Calculation of the Energy Characteristics of Graft Polymerization of Methyl Methacrylate to Fibre-Forming Polymers – T. V. Druzhinina, I. A. Abronin, and A. R. Bikkullova 196 15
The Structure of High-Strength Ultrahigh-Molecular-Weight Polyethylene Fibres Fabricated by the Gel-Spinning Method – P. M. Pakhomov, A. Yu. Golikova, S. D. Khizhnyak, M. A. Shavyrina, V. P. Galitsin, S. A. Gribanov, and S. A. Kuptsov 200 18
Structural Changes in Flax Cellulose in Treatment with Water—Alcohol Solutions of Alkali – M. I. Voronova, S. N. Petrova, T. N. Lebedeva, O. N. Ivanova, and A. G. Zakharov 207 23
Flow of Viscoelastic Polymer Systems through Round Capillaries. Kinematic Analysis – Yu. A. Vinogradov 211 26

MATERIALS SCIENCE
Evaluation of the Air Permeability of Needle-Punch Materials – A. V. Dedov 218 31
Performance Characteristics of Heater Elements Made of Carbon Fibres – N. V. Borisova, O. M. Sladkov, and A. A. Artemenko 221 33

FIBRE COMPOSITE MATERIALS
Fibre Polymer Composites, Basic Types, Principles of Fabrication, and Properties. Part 4. Functional Properties of Fibre Polymer Composites and Their Evaluation – K. E. Perepelkin 224 35

Multilayer Flame- and Heat-Shielding Coatings Containing Metal-Containing Carbon Nanostructures – S. G. Shuklin 240 47

METHODS OF INVESTIGATION

Recording Errors in Spectrophotometric Studies of Fibre-Forming Compounds – M. M. Shablygin, A. F. Vasil'ev, and A. P. Ivanov 247 53

Some Aspects of Using Differential Thermal Analysis for Studying Polymers – V. F. Skorodumov 251 55

Determination of the Strain Characteristics of Synthetic Fibres in Variable Temperature Conditions – A. V. Demidov, A. G. Makarov, and A. M. Stalevich 255 58

MACHINES AND EQUIPMENT

Determination of the Kinematic Parameters of the Thread Holder in Winding of the Outer Loop According to an Assigned Curve – A. V. Sharonov 259 61

WORLD PRODUCTION AND CONSUMPTION OF POLYESTER FIBRES AND THREAD – E. M. Aizenshtein 264 67

Volume 38, Number 4, July-August, 2006

IVANOVO DEPARTMENT OF TECHNOLOGY OF CHEMICAL FIBRES AND COMPOSITE MATERIALS — 70 YEARS

Regulation of the Structure of Fibres from Polymer Solutions – E. A. Pakshver 273 10

Process Features in Production of Polyolefin Monofilaments – V. I. Isaeva 284 18

Status and Prospects for Development of Polyester Fibre and Yarn Production Technology – V. E. Geller 298 28

Solid-Phase Synthesis of Polyamide-6 – L. N. Mizerovskii – and Yu. M. Bazarov 313 40

Physicochemical Properties of Heterogeneous Cellulose—Solvent Systems – A. G. Zakharov and A. N. Prusov 325 49

Use of Electron Accelerators in Polymer Composite Material Production Technology – A. A. Kolesnikov 337 59

Volume 38, Number 5, September-October, 2006

PRODUCTION AND USE OF POLYPROPYLENE FIBRES AND YARN – E. M. Aizenshtein and V. N. Efremov 345 3

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Theory and Calculation of Spinning of Polymer Fibres and Thread (Non System) – V. V. Kiselev, G. I. Fridman, and S. F. Ermolaeva 351 8

Synthesis and Properties of Synthetic Polymer Latexes with Copolymerized Emulsifiers – V. A. Volkov and R. V. Rodionova 359 13

Study of the Rheological Properties of Melts of Polypropylene and Poly(Butylene Terephthalate) Blends – E. V. Kovaleva, V. V. Lapkovskii, N. V. Shevlik, and B. E. Geller 365 17

Kinetics of Graft Polymerization to the Surface of Oriented Polycaproamide – T. V. Druzhinina and A. R. Bikkulova 370 21
Coalescence in Three-Component Polymer Systems – O. V. Romankevich and N. A. Osipenko 374 24
Biodegradable, Oriented, Flat Starch-Filled Polypropylene Fibres – O. A. Ermolovich, N. S. Vinidiktova, A. V. Makarevich, and D. A. Orekhov 377 26
Fabrication of Carbon Fibres from Wet-Spun Commercial Polyacrylonitrile Fibres – R. Eslami Farsani, A. Shokuhfar, and A. Sedghi 383 31
Modification of Poly(Ethylene Terephthalate) Fibres with Bactericides with the Craze Formation Mechanism – N. S. Vinidiktova, I. V. Borisevich, L. S. Pinchuk, V. E. Sytsko, and L. V. Ignatovskaya 387 34
Use of Nitric Acid Pulping of Cellulose to Remove Radionuclides from the Phytomass of Annual Plants – V. I. Torgashov, F. N. Kaputskii, O. V. Zubets, E. V. Gert, G. P. Fink, and D. L. Johns 392 38
Rheological Properties of Aqueous Solutions of Sodium Carboxymethylcellulose and Methylhydroxypropylcellulose Blends – O. V. Alekseeva, O. V. Romzhkova, A. N. Prusov, V. A. Padokhin, and Ya. A. Anikin 396 41

MATERIALS SCIENCE
Change in the Mechanical Properties of Para-Aramid Fibres in Thermal Aging – K. E. Perepelkin, I. V. Andreeva, G. P. Meshcheryakova, and I. Yu. Morgoeva 400 44
Fabrication of Polyester Decorative Upholstery Materials with Low Combustibility – O. V. Kiseleva, N. S. Zubkova, N. M. Levakova, and E. M. Gorynina 406 50
Computer Study of the Viscoelasticity of Polymeric Materials – A. V. Demidov, A. G. Makarov, and A. M. Stalevich 410 53

MACHINES AND EQUIPMENT
Effective Trends in Revamping Polymerization, Extraction, and Drying Equipment for Chemical Fibre Plants – E. K. Platonov, V. I. Stupa, A. A. Bogoslavskii, R. N. Gora, and M. V. Stupa 415 57
Computer Study of the Dynamics of Heavy Electric Spindles – I. M. Bespalova 422 62

FIBRE COMPOSITE MATERIALS
Thermostable Foam Organoplastics Made from Polyimide Binders and Polyimide Felt – E. N. Popova, V. E. Yudin, N. V. Kukarkina, G. N. Gubanova, T. A. Kostereva, I. V. Gofman, and V. V. Kudryavtsev 428 66

WORLD PRODUCTION OF CHEMICAL FIBRES AND YARNS IN 2005 – E. M. Aizenshtein 434 71

Volume 38, Number 6, November-December, 2006

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES
Condensation Equilibrium in the Polycaproamide—Water—LiCl System – Yu. M. Bazarov and L. N. Mizerovskii 443 3
State of Lithium Cation in a Solution of Polyurethane in Dimethylformamide – O. V. Erokhina, A. V. Artemov, L. S. Gal'braikh, G. A. Vikhoreva, and A. A. Polyutov 447 5

MATERIALS SCIENCE
The Pseudoeffect of the Hydrogen Chloride Contained in the Aramid Fibres Svm, Armos, and Rusar on Their Properties During Prolonged Storage and Use – V. M. Shchetinin, I. V. Tikhonov, and A. V. Tokarev 450 7

The Dilaton Approach to Evaluating the Limiting Mechanical Properties of Aramid Fibres in High-Speed Pulsed Loads – A. A. Rybin, S. V. Bukharov, M. V. Shablygin, and I. V. Slugin 453 9
Limiting and Ultimate Levels of the Mechanical Characteristics of Aramid Fibres in Dynamic Rupture – A. A. Rybin, S. V. Bukharov, and M. V. Shablygin 457 12
The Modifying Effect of Weak Aqueous Solutions of Ammonia on Poly(Ethylene Terephthalate) Materials – N. P. Prorokova and S. Yu. Vavilova 461 15
Modification of Composites for Production of Porous Polymeric Materials and Coatings by Incorporation of Interpolymer Complexes – E. S. Bokova and G. P. Andrianova 466 19
Structure and Strength Properties of Surgical Sutures Modified with a Polyhydroxybutyrate Coating – M. B. Fedorov, G. A. Vikhoreva, N. R. Kil'deeva, Yu. K. Borisova, T. I. Vinokurova, G. A. Bonartseva, and L. S. Gal'braikh 471 22

FIBRE COMPOSITE MATERIALS
Polymeric Fibre Composites, Basic Types, Principles of Fabrication, and Properties. Part 5. Effect of Performance Effects on Polymeric Fibre Composites; Safety/Hazardousness Characteristics – K. E. Perepelkin 476 26

PHYSICAL CHEMISTRY OF FIBRE-FORMING POLYMERS
Chemical Bonds in Carbon Fibres – A. T. Serkov 495 41
Role of the Intermolecular Interaction in Polymer Fibre Chemistry and Technology – M. V. Shablygin 499 44
Calculation of Temperature-Time Field Characteristics in Polymer Fibre and Yarn Chemistry and Technology – M. V. Shablygin and A. V. Shepelev 502 47
Paramagnetism of Melanoprotein Fibres – D. R. Baitimirov, D. V. Starichenko, T. A. Pravishkina, S. F. Konev, and Yu. N. Shvachko 506 49

MATHEMATICAL MODELING AND METHODS OF INVESTIGATION
Modeling the Kinetics of Drying of Viscose Fibre – G. I. Efremov and M. Yu. Govorova 513 54
Optimizing Selection of A Model of the Viscoelasticity of Synthetic Fibres – A. V. Demidov, A. G. Makarov, and A. M. Stalevich 518 58

PRODUCTION CONTROL
Controlling the Thickness of a Fluoroplastic Coating for Polyimide Films – I. D. Pupyshev, A. B. Polevoi, and A. I. Tishchenko 523 61
Determination of the Critical Twist for Polypropylene Yarn – G. M. Korobova and N. A. Nozdrina 527 64

PRICES FOR PETROCHEMICAL RAW MATERIALS AND SYNTHETIC FIBRES AND YARNS IN THE FIRST HALF OF 2006 – E. M. Aizenshtein 532 68
